

2008 Fairline Squadron 78 £899,950 VAT UK TAX paid

This 2008 Fairline Squadron 78 is a superb example of British yacht craftsmanship, combining elegant styling, exceptional sea-keeping, and luxurious accommodation. Measuring approximately 24 metres (79ft) in length with a beam of 5.7 metres, this flagship flybridge motor yacht offers expansive living spaces, outstanding performance, and the comfort expected of a vessel in her class. Powered by twin Caterpillar C32 diesel engines producing up to 1,620hp each, she delivers exhilarating performance with cruising speeds around 25–28 knots and a top speed approaching 35 knots.

Designed for entertaining and extended cruising, the Squadron 78 features a spacious flybridge complete with generous seating, dining area, wet bar, refrigeration, and sunbathing spaces. The aft cockpit flows seamlessly into a beautifully appointed saloon, where panoramic windows flood the interior with natural light and showcase the yacht's luxurious wood finishes and refined furnishings.

With larger yacht features like the flybridge crane, transom door into the twin berth crew cabin, four very good size cabins for eight berths (the master has a superb four piece en-suite) this Squadron 78 is a really great value alternative to a new boat of the same size.

Having sold the boat new and to her current owner, we do recommend a viewing to appreciate the features and design of the this impressive vessel.
